Engineering student who values discipline, consistent progress, and punctuality. Prioritizes clear communication and a fair, balanced approach in professional settings. Strives to work in a structured and organized manner while contributing meaningfully to professional environments. Aims to build a career in artificial intelligence and machine learning, with a focus on developing skills in MLOps, NLP, and Generative AI.

Education

Marmara University, Faculty of Engineering, B.Sc. in Computer Engineering
2021 - Present

Experience

Intern, **Summarify**
07/2025 - 08/2025

- Contributed to early project stages by performing data preprocessing and feature engineering tasks.
- Applied feature selection techniques to support initial model comparisons and improve variable understanding.
- Gained experience with Generative AI concepts such as retrieval-augmented generation.

Intern, **VeNIT Lab**
07/2024 - 08/2024

- Processed OpenStreetMap data and prepared basic visualizations.
- Explored and implemented the A* routing algorithm for route calculation tasks.
- Assisted in setting up the virtual environment and preparing datasets.

Trainee, **Yetkin Gençler**
09/2022 - 12/2022

- Completed a 14-week intensive training on 21st-century competencies.

Skills

- Python
- Excel
- SQL
- Git/Github
- Docker
- AWS

Languages

- **Turkish -** Native
- **English -** Full working proficiency

Personal Interests

- Watching drama and animated movies
- Practicing tango
- Reading novels and philosophy books
- Strategy games, particularly Clash of Clans
